143x68x23mm (5.6x2.7x0.9 inch)

**Weight**

167 grams/0.37lbs (excluding cables)

With an iPod or iPhone and a payment terminal integrated in one single device, the e315 provides ultimate freedom and mobility.

The e315 combines the usage of a professional application running on iOS that hands over the payment acceptance function to a secured PIN-entry terminal. For an optimum convenience, the e315 also allows to scan goods with a barcode reader. The solution features a color touchscreen capable of signature capture and is built on the Verifone Engage platform, enabling rich customer interaction at the point of sale.
